**Give the Opportunity
to Say “Yes” to Donation!**

Juan Espino with daughters Rebecca and Jessica, donor family

Aaron Daniels, waiting for kidney transplant

Brandy Parker, heart recipient, with children Rebecca and Connor

Established in 1987, LifeGift is the not-for-profit organ procurement organization that recovers organs and tissues for individuals needing transplants in 109 Texas counties.

LifeGift envisions a community where every person says “yes” to organ and tissue donation.

The LifeGift Vital Volunteer program

consists of individuals who are transplant recipients, donor family members, living donors, those waiting for a lifesaving transplant and others who support our mission. Our Vital Volunteers are vital to fulfilling this mission of saving and enhancing lives through organ and tissue donation.

What do Vital Volunteers Do?

They give the opportunity for people to say "Yes" to donation! LifeGift Vital Volunteers promote the Donate Life Texas Registry and encourage others to make the important decision of registering as an organ and tissue donor.
